## Straight Talk III August 19 2011

With the economy in turmoil and the recent downgrade by S&P of U.S. debt, I thought this actual headline from the Wall Street Journal on August 8<sup>th</sup> underscored how crazy things are! WSJ Headline: "Yields on 10-year U.S. Treasuries down as investors seek safety of Treasuries following Treasury downgrade." Talk about doublespeak!

Here's my Top 10 List...careful as it is politically incorrect in spots, so I apologize up front and don't intend to offend anyone. Please take it for my weird sense of humor and nothing more. All the best to everyone. Eight RSVPs and counting. Jay
